

18 February 1969

MORNING MEETING ACTION ITEM

TO: Legislative Counsel

Maury noted that the Director is scheduled to testify on the NPT problem on 26 or 27 February. Following a long discussion on the genesis of this requirement and what exactly is expected of the Director, the Director asked Maury to contact Senator Stennis and determine (a) whether it is possible to relieve the Agency of any responsibility to provide testimony and (b) precisely what material should be covered if testimony is desired. The Director asked that at least one week be allowed for the preparation of materials prior to his possible appearance.
